Probability and Statistics: A Primer for Beginners and Pre-Beginners

Prologue to the Prologue: Set Theory

Part Two: Event Operations and Properties

Primary reference: Casella-Berger 2nd Edition

There's other stuff we can do with events. We can combine them, in a union:

$\left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right\} + \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \end{array} \right$

We can keep only the outcomes they have in common, in their intersection:

Remember the complementary events from last time?

 $B = \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \\ \bullet \\ \end{array} \right\} , B^{C} = \left\{ \begin{array}{c} \bullet \\ \bullet \\ \bullet \\ \bullet \\ \end{array} \right\} \right\}$

Their union has an interesting property:

Their intersection has a far less-interesting property:

Remember we called those events B and B^C? Well, now it doesn't matter what's in them; we can generalize! For any event B and its complement B^C :

$$B \cup B^C = \Omega$$
$$B \cap B^C = \emptyset$$

Caution!

We're about to enter Venn Diagram territory. Casella, Berger, and my old stats theory professor would (presumably) all like me to remind you that diagrams can illustrate, **but they don't prove anything** (and we aren't going to write out many proofs in this course, so go buy the book). Whatever you do, don't draw them on your exams!!! Presentation 1-1-2: Event Operations and Properties Let's call this big, ugly rectangle Ω , and put three circular events A, B, and C inside.

Referring back to that diagram, visualize a union of events as a combination of the circles:

AUB A B

And visualize the intersection of the events as the, well, intersection of the circles.

Now we can write and illustrate some simple properties. Commutative:

$A \cup B = B \cup A$

$A \cap B = B \cap A$

Now we can write and illustrate some simple properties. Associative pt.1: $(A \cup B) \cup C = A \cup (B \cup C)$

Now we can write and illustrate some simple properties. Associative pt.2: $(A \cap B) \cap C = A \cap (B \cap C)$

Now we can write and illustrate some simple properties. Distributive, pt.1: $A \cap (B \cup C) = (A \cap B) \cup (A \cap C)$

A

C

Now we can write and illustrate some simple properties. Distributive, pt.2: $A \cup (B \cap C) = (A \cup B) \cap (A \cup C)$

A

B

A

 \mathbf{C}

В

B

Now we can write and illustrate some simple properties. DeMorgan's Laws, pt. 1: $(A \cup B)^{C} = A^{C} \cap B^{C}$

Now we can write and illustrate some simple properties. DeMorgan's Laws, pt. 2: $(A \cap B)^{C} = A^{C} \cup B^{C}$
